HUNTER

The Hunter Safety

Device and App

Reliable location awareness for
hunters anywhere, even with no
service.

01 // THE PROBLEM

GOING DARK IN THE FIELD SHOULDN'T MEAN STAYING DARK.

- **9,000** Hunters go missing each year
- **500** shooting incidents occur due to poor visibility and lack of

- Current GPS solutions cost over **\$300**
- standard smartphones fail in zero cell service environments.

02 // OUR
SOLUTION

HUNTER R RADA R

01

**Offline
Communication**
Stay in touch with your
cell service via radio
linked mesh networks.

02

PATH TO PROFITABILITY

For the next 4 years, we predict about a **20% increase** in new buyers each year with an initial capture of **.1%** of our estimated market in our first year of launch. With a conservative profit margin of **42%**, projections say we will hit a **6 figure yearly profit** after the first 3 years since launch.

Yearly Projections

THE ESSENTIAL OUTDOOR PLATFORM

**Expansion beyond hunting through hiking,
ranching, backpacking, etc.**

“Hunting is about tradition, family, and responsibility. Hunter Radar ensures everyone makes it home. We are setting the standard for outdoor safety.”
